#### **EDUCATION**

Priyadarshini Bhagwati College Of Engineering

B. Tech - Computer Science and Engineering - CGPA - 7.2

Dec 2021 - Jun 2025 Nagpur, Maharashtra

Shri Mathuradas Mohota College Of Science

General Science - **Percentage** - **79.60** 

Aug 2019 – Jun 2021

Nagpur, Maharashtra

#### TECHNICAL SKILLS

• Languages: C, C++, Java, JavaScript

• Technologies/Frameworks: Spring, Spring Boot, Spring Data JPA, REST API, HTML5, CSS, Tailwind CSS, React.js

• Developer Tools: Eclipse, Spring Tool Suite (STS), IntelliJ IDEA, Postman, VS Code, Workbench

• Database: SQL, MySQL

#### EXPERIENCE

#### ARDSOFT IT SOLUTIONS

Jan 2025 - July 2025

Nagpur, Maharashtra

Java Full Stack Intern

- Gained hands-on training in Java Full Stack Development with a focus on Spring Boot and React.js.
- Implemented mini projects and practice modules covering CRUD operations, JWT-based authentication, and REST APIs.
- Practiced building backend layers using Spring Boot with layered architecture and MVC design pattern.
- Created responsive UI components using React.js and styled them with Tailwind CSS.
- Worked with MySQL for data persistence and performed operations using Spring Data JPA and Hibernate ORM.

#### PROJECTS

## Project Allocation System GitHub Live Demo

July 2025

Spring Boot, Data JPA, MySQL, React.js

- Engineered a full-stack project allocation system for college students, reducing manual assignment time by 90%.
- Implemented secure role-based access for Admin and Student using Spring Security and JWT.
- Crafted and connected REST APIs with MySQL database using Spring Boot and Data JPA.
- Designed a responsive and intuitive frontend using React.js, hosted on Vercel.
- Containerized the backend using Docker and launched on Render to ensure scalable deployment.

### Inventory Management System GitHub

Mar 2025

Spring Boot, Spring Security, MySQL, React.js

- Constructed a full-stack inventory app managing products with real-time stock updates.
- Enabled secure login and role-based access (Admin, User) using JWT and Spring Security.
- Implemented backend endpoints in Spring Boot and linked them with MySQL for data operations.
- Enhanced UI performance using optimized React.js components, cutting load time by 40%.

#### **CERTIFICATIONS**

- Azure Fundamentals Microsoft
- Google Android Developer Virtual Internship EduSkills
